ANGELA DAVISON'S UNIQUE HAIR ASSESSMENT SYSTEM

Covers:

Your horse's organs, body systems, musculo/skeletal and joints. How your horse rates his feeds and supplements showing what suits one doesn't necessarily suit another's gastro-intestinal tract. (This has proven to be invaluable information for the owner/trainer) How your horse rates his physical energy, mental/emotional energy, environment, human handler, rider, discipline and more...
Angela will give you information which will make perfect sense to you.

Angela's hair assessment system results in a 15 week treatment programme for your horse. This facilitates a positive and permanent healing change rather than putting a band-aid on the problem.

By the end of that programme 80% of horses will be balanced healthy and happy and we expect them to keep improving once the Herb/Flower Remedy treatment has finished, the exceptions being horses with joint /connective tissue injuries or nervous system issues - they may take a little longer.

Other therapies may be suggested in conjunction with or after this treatment programme i.e. Veterinary, Bodywork, Dentist, Farrier, Acupuncture, Chiropractor etc.

The 15 week hair assessment programme includes:

The initial hair assessment, followed by a phone consultation of approximately 30 minutes with Angela to discuss all the findings.

Your horse's first half of the fully focused 7 week Herb/ Flower Remedy formula will be mailed to you along with a written summary indicating problem areas plus your horse's individual Nutritional Ratings and Check list.

In week 5 of the horse's treatment we will request you send a fresh hair sample for reassessment with an update from you regarding changes you have noticed, any concerns etc. Positive changes are expected to be seen from mid to latter end of the initial treatment. You will be given a reminder call or email.

This reassessment is important as many changes will have taken place in the body and a different formula will result to complete the second half of the horse's treatment programme. When Angela has completed the reassessment then another phone consultation with her will take place for you to discuss the changes and the way ahead.

The second half of your horse's Herb/Flower Remedy formula will be mailed to you.

End of week 15 – progress discussed with Angela ensuring your horse is a happy, healthy individual, enjoying his work with you so you can move forward and achieve your goals.

Don't put a bandaid on it - treat the whole horse, not just the symptoms!

HOW TO COLLECT HAIR AND WHAT WE NEED FROM YOU

How to collect hair:

Send a good switch of hair (ideally from the mane). At least 1cm thick either pulled out or cut close to the skin. Hogged mane horses send enough hair to cover a 20c piece.

Take the envelope with you to the horse and drop the hair immediately into the envelope and seal (no plastic bags please). It is helpful to label the envelope with the horse's name before taking the hair sample.

Please fill in this form:

Owner/trainer's name:

Contact phone number:

Email address:

Postal address:

Horse's stable name..... breed..... sex..... age.....

Discipline (i.e. race, campdraft, dressage etc..)

How long has the horse been with the owner/trainer:

Horse's perceived problem:

Everything the horse is eating, including all additives:.....

Any medications:.....

Veterinary diagnosis and treatments if any:

Any of your own thoughts and observations, add another sheet of paper if not enough space here.

Either email completed form or send with the hair sample EXPRESS mail to:
The Horse Herbalist, PO Box 161, BALLINA NSW 2478

Payment

Direct Deposit receipt (BSB 112 879 ACC: 156 064 764) or PayPal - See Online Shop
